Memo to the Audience-Concert Etiquette

The students and staff would appreciate your cooperation
with the following items:

- Please turn off or silence all electronic devices & stay seated during the performance of each group
- If you need to exit during a performance, please do so after a bands' production
- Everyone would love to hear their childrens' performances free from nearby talking, so please feel free to have conversations outside of the stadium
- The students will be modeling exceptional audience behavior tonight, so please support their efforts
